Re: Petition of SBC Internet Services, Inc. d/b/a AT&T Internet Services
Requesting the Commission's Intervention in Numbering Resources
Determinations – Charleston Rate Center
Docket No.

Dear Ms. Boyd:

SBC Internet Services, Inc. d/b/a AT&T Internet Services ("ATTIS") respectfully encloses for filing a Petition for Review of Numbering Resources Determination in the Charleston Rate Center in the above-captioned matter.

By copy of this letter, I am serving a copy of this document on all parties of record as indicated on the attached Certificate of Service.

Sincerely,

A handwritten signature in black ink that reads "Patrick W. Turner". The signature is written in a cursive, flowing style.

BEFORE THE
PUBLIC SERVICE COMMISSION
OF SOUTH CAROLINA

In Re: PETITION OF SBC INTERNET SERVICES, INC.)
D/B/A AT&T INTERNET SERVICES REQUESTING)
THE COMMISSION'S INTERVENTION IN)
NUMBERING RESOURCES DETERMINATIONS)

PETITION FOR REVIEW OF NUMBERING RESOURCES DETERMINATION
IN THE CHARLESTON RATE CENTER

SBC Internet Services, Inc. d/b/a AT&T Internet Services ("ATTIS"), pursuant to rules adopted by the Federal Communications Commission ("FCC") for challenging numbering determinations, petitions the Public Service Commission of South Carolina ("Commission") for review of a recent denial of ATTIS' application for use of numbering resources in the 843 area code.¹ Numbering determinations are made by the North American Numbering Plan Administrator ("NANPA") and/or the Pooling Administrator ("PA"), depending on the nature of the numbering request. The FCC's rules addressing these matters, however, generalize responsibilities of the NANPA and the PA under the heading "Central office code administration,"² and the FCC's Orders addressing these matters allow for challenges of determinations by both entities.³ Accordingly, this Petition addresses the determination described herein and asks the Commission to direct NANPA and/or the PA to provide the requested relief to the extent it is within the respective authority and responsibility of NANPA

¹ The Commission recently granted a similar Petition in which ATTIS sought relief from a numbering resources determination in Docket No. 2011-313-C. That prior Petition addressed numbering resources for use in LATA 422, whereas the present Petition addresses numbering resources for use in a different LATA (LATA 436).

² See, e.g., 47 C.F.R. §52.15.

³ See Third Report and Order and Second Order on Reconsideration in CC Docket No. 96-98 and CC Docket No. 99-200, *Numbering Resource Optimization; etc.*, 17 FCC Rcd 252, ¶61 (2001) ("*Third NRO Order*").

and/or the PA to do so. The denial that is the subject of this Petition impacts ATTIS' ability to establish a new switch for its CVOIP/IVERSE service which will roll out in November 2011.

In support of this Petition, ATTIS states:

1. ATTIS provides various unregulated services in various portions of South Carolina, including the Charleston exchange. In 2005, the FCC issued an order granting ATTIS a waiver to allow ATTIS to obtain direct access to numbering resources from NANPA and/or the PA.⁴ As a condition of that Order, the FCC required ATTIS to provide the FCC and the relevant state commission(s) with notice before obtaining numbering resources from NANPA or the PA.⁵ ATTIS provided both the FCC and this Commission notice of its intent to request the numbering resources that are the subject of this Petition as required by this FCC Order.⁶

2. NANPA is an independent non-governmental entity that is responsible for administering and managing the North American Numbering Plan ("NANP").⁷

3. The PA is an independent non-governmental entity that is responsible for administering thousands-block number pooling.⁸

4. On March 31, 2000, the FCC issued an Order relating to numbering resource optimization.⁹ The goal of the *First NRO Order* was to implement uniform standards governing

⁴ *Administration of the North American Numbering Plan*, CC Docket No. 99-200, Order, FCC 05-20 at ¶1 (released Feb. 1, 2005) ("Numbering Waiver Order").

⁵ *Id.* at ¶9 (imposing 30-day notice requirement).

⁶ See Attachment A to this Petition (April 26, 2011 letter to FCC, voluminous attachments containing confidential commercial information not included) and Attachment B to this Petition (May 9, 2011 letter to this Commission).

⁷ See 47 C.F.R. § 52.13 (a), (b).

⁸ See 47 C.F.R. §52.7(g). See also 47 C.F.R. §52.20 ("Thousands-block number pooling is the process by which the 10,000 numbers in a central office code (NXX) are separated into ten sequential blocks of 1,000 numbers each (thousands-blocks), and allocated separately within a rate center.").

⁹ See Report and Order and Further Notice of Proposed Rule Making, *Numbering Resources Optimization*, 15 FCC Rcd 7574 (2000) ("*First NRO Order*").

requests for telephone numbering resources in order to increase efficiency in the use of existing telephone numbers and to avoid further exhaustion of existing numbers.

5. Among other things, the FCC required that, to qualify for access to new numbering resources, applicants must establish that existing inventory within the applicant's rate center will be exhausted within six months of the application. The FCC reaffirmed this requirement in two subsequent orders.¹⁰ Prior to this ruling, the Central Office Code Assignment Guidelines used to make code assignments required the applicant's existing number inventory within the applicant's serving switch to exhaust within six months of the code application or the carrier had to prove that it was unable to meet a specific customer's request with its current inventory of numbers in order for a code to be assigned.

6. In addition to the months-to-exhaust ("MTE") requirement described above, the FCC's rules also required carriers to meet a rate center utilization threshold of 60 percent in order to receive additional numbering resources in a given rate center.¹¹ The utilization threshold has increased by five percent per year, and it has now reached the maximum of 75 percent. Based on the FCC's orders, carriers must meet both the six months MTE requirement and the utilization threshold on a rate center basis in order to obtain numbering resources.¹²

7. On or about June 13, 2011, ATTIS submitted a Pooling Administration System request for the assignment of one thousands-block in the Charleston exchange in the 843 area code.¹³ In order to meet its need for numbers, ATTIS requested the assignment of an 843-NXX-

¹⁰ See Second Report and Order, Order on Reconsideration in CC Docket No. 96-98 and CC Docket No. 99-200, and Second Further Notice of Proposed Rulemaking in CC Docket No. 99-200, *Numbering Resource Optimization*, 16 FCC Rcd 306 at ¶29 (2000) ("*Second NRO Order*"); *Third NRO Order* at ¶¶48-49.

¹¹ See *Second NRO Order* at ¶22; *Third NRO Order* at ¶¶50-52.

¹² *Third NRO Order* at ¶¶50-52.

¹³ See Attachment C to this Petition.

7XXX one thousands-block.¹⁴ This request is for numbers to establish an LRN for a new switch that will serve Charleston and other rate centers in South Carolina and nationally. This will be a footprint block for this additional network switch.

8. ATTIS' application was completed in accordance with Industry Numbering Committee ("INC") guidelines, and ATTIS filled out the necessary Month-to-Exhaust Certification Worksheets as required.

9. At the time of the filing of the numbering resource request, the Charleston Rate Center had a MTE of 4.055 months, and a utilization of 20.10%.¹⁵

10. Thereafter, on June 13, 2011, ATTIS' request was denied because ATTIS had not met the rate center based MTE and/or utilization criterion now set forth in the INC Guidelines.¹⁶ ATTIS' numbering resource requests were denied despite the fact that ATTIS requires an LRN for its first network switch in the Charleston Rate Center.

11. ATTIS' inability to obtain the requested numbering resources prevents ATTIS from providing the forecasted service its customers desire, need, and expect. If ATTIS is not assigned the numbering resources requested, ATTIS will be unable to accommodate growth and provide services requested by its customers. The refusal to grant numbering resources sufficient to meet the needs of its customers is inconsistent with the FCC's position that "(u)nder no circumstances should consumers be precluded from receiving telecommunications services of their choice from providers of their choice for want of numbering resources."¹⁷

¹⁴ *See Id.*

¹⁵ *See Id.*

¹⁶ *See Id.*

¹⁷ *Second NRO Order* at ¶ 61.

12. Both the FCC's rules and the INC Guidelines provide that state regulatory authorities have the power and authority to review a decision to deny a request for numbering resources.¹⁸

13. Prior to the FCC's Order and the resulting change in the INC Guidelines, the applicable MTE procedures permitted a carrier to receive a code assignment, even if the MTE requirement at the switch level was not met. These waivers or exceptions were granted where customer hardships could be demonstrated or where the service provider's inventory did not have a block of sequential numbers large enough to meet the customer's specific request. Under today's procedures, numbering determinations are based on the MTE for the entire rate center without any exceptions. The FCC understood the need for the type of relief requested in this petition in a multiple-switch rate center based on input from SBC in the Second NRO Order,¹⁹ and granting this request to accommodate future customer demand is consistent with that Order.

14. ATTIS requests that the Commission reverse the decision to withhold numbering resources from ATTIS because that decision interferes with ATTIS' ability to accommodate growth and provide services to its customers as required under South Carolina law.

15. This Commission (see Docket No. 2002 –185-C, Order No. 2002-415) and other state regulatory agencies in Alabama, Florida, Georgia, Louisiana, North Carolina, and Tennessee similarly have recognized their jurisdiction and authority to review numbering denials and to order the release of number resources to meet customer needs.

¹⁸ See *Third NRO Order*, Appendix A, Final Rules, § 52.15(g) (4) ("The carrier may challenge the NANPA's decision to the appropriate state regulatory commission"); *Third NRO Order* at ¶¶ 61-66; *Central Office Code (NXX) Assignment Guidelines*, INC 95-407-009, § 13.0 (rev. April 26, 1999)(CO Code Guidelines) ("Appeals may include but are not limited to one or more of the following options: . . . C. The CO Code Administrator(s) and code holders/applicants may pursue the disagreement with the appropriate governmental/regulatory body").

¹⁹ See *Second NRO Order* at ¶33.

WHEREFORE, ATTIS requests that the Commission:

- A. Reverse the decision to deny ATTIS' request for additional numbering resources;
- B. Direct NANPA and/or the PA (to the extent it is within the respective authority and responsibility of NANPA and/or the PA to do so) to provide ATTIS a one thousands-block in the Charleston exchange in the 843 area code, preferably an 843-NXX-7XXX one thousands-block in the Charleston exchange if available.
- C. Grant the requested relief as soon as possible.

Respectfully submitted this 19th day of September, 2011.

Re: SBC Internet Services, Inc. dba AT&T Internet Services request Numbering Resources
Pursuant to *Administration of the North American Numbering Plan*, FCC Docket No. 99-200, Order, FCC 05-20 (released Feb. 1, 2005)

Dear Ms. Boyd:

Pursuant to the Federal Communications Commission's Docket No. 99-200, SBC Internet Services, Inc. dba AT&T Internet Services (ATTIS) hereby notifies this Commission of its intent to request numbering resources for the rate centers listed in the attached Part 1 and/or Part 1A. Under that order, we are required to provide this Commission with this notice before obtaining numbering resources from the North American Numbering Plan Administrator and/or the Pooling Administrator.¹ In addition to filing the attached information with this Commission, we are also submitting this information to the Federal Communications Commission.

This is for your notification only. No action is required by the Commission.

Yours very truly,

Executive Director

**Thousands-Block Application Form
Part 1A**

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for a Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia™ LERG™ Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia™ Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI™ tandem of the facilities based provider¹. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Central Office Code (NXX) Assignment Request – Part 1 (ATIS-0300050.p1)
July 19, 2010

¹ Identify type and reason for change(s) in Section 1.4(e).

² A list of the current Code Administrator(s) who can provide assistance in completing this form is available upon request from NANPA.

³ The NXX field is required for any code request in which there is a change or the NXX is being returned.

⁴ Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments may contact NECA (800-228-8597) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignment should direct questions regarding appropriate OCN usage to the Telcordia™ Routing Administration (TRA) on 732-699-6700.

⁵ This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the eleven-character Telcordia™ COMMON LANGUAGE CLLI™ Location Identification of the applicant's switch or POI. (Telcordia and CLLI are trademarks and COMMON LANGUAGE is a registered trademarks of Telcordia Technologies, Inc.)

⁶ Rate Center name must be a tariffed Rate Center associated with toll billing.

⁷ Applies to any code applicant connecting to the Public Switched Telephone Network via a tandem owned by a different carrier.

TM Telcordia and CLLI are trademarks and COMMON LANGUAGE is a registered trademarks of Telcordia Technologies, Inc.

⁸ This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the CLLI™ Location Identification Code of the switching entity/POI, and is the same on Part 2, Form 1, Page 2 of 2.

⁹ Code applicants should request an effective date that is at least 66 calendar days from the submission of this form. It should be noted that interconnection arrangements and facilities need to be in place prior to activation of a code. Such arrangements are outside the scope of these guidelines.

¹⁰ Requests for code assignment should not be made more than six months prior to the requested effective date.

¹¹ Select if you are the current Code Holder

¹² Select if you are not the current Code Holder

¹³ The Applicant will indicate "Yes" if the NXX being requested will be used for thousands-block number pooling and will leave this field blank if it is not.

¹⁴ An incomplete form may result in delays in processing this request.

**Thousands-Block Application Form
Part 1A**

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under "Block Applicant" the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator's name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia™ LERG™ Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia™ Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI™ tandem of the facilities based provider¹. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

Section 1.6 Service Providers must indicate the updated/current information in regards to contaminated TNs on the block they are returning to the pool. Blocks with over 10% contamination (101 TNs or more) shall not be returned to the pool unless they meet criteria outlined in section 9.1.2 of these Guidelines. If the block being returned is over 10% contaminated the PA shall seek a new block holder. If question c and/or d have a response of No, the request for return shall be denied.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.

Thousands-Block Application Form Part 1A

Footnotes:

- ⁱ Identify the type of change(s) in Section 1.5.
- ⁱⁱ The Pool Administrator is available to assist in completing these forms.
- ⁱⁱⁱ A CO Code application will also need to be submitted to the PA
- ^{iv} Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments should contact NECA (800 524-1020) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignments should direct questions regarding appropriate OCN usage to (TRA) (732-699-6700).
- ^v This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the 11 character CLLI™ code of the switch /POI.
- ^{vi} Rate Center name must be a tariffed Rate Center.
- ^{vii} Acknowledgment and indication of disposition of this application will be provided to applicant within seven calendar days from the date of receipt of this application. An incomplete form may result in delays in processing this request.
- ^{viii} Please ensure that the NPA-XXX of the LRN to be associated with this block(s) is/will be active in the PSTN prior to the effective date of the block(s).
- ^{ix} Select if you are the current Block Holder
- ^x Select if you are not the current Block Holder
- ^{xi} Telcordia, LERG Routing Guide, and CLLI are trademarks of Telcordia Technologies, Inc.

Re: LRN request for CHARLESTON Rate Center OCN 516C

To Whom It May Concern:

This letter documents our requirements in relation to additional numbering resources for SBC Internet Services, Inc. d/b/a AT&T Internet Services (SBCIS/ATTIS). It is understood that SBCIS/ATTIS may take this request to the State Commission, if needed, to fulfill our request for one block in the Charleston rate center for a LRN use.

SBCIS/ATTIS is establishing a new switch (CHTNSCDT01Z) for our Module 3 project for CVoIP/UVERSE which will roll out in November 2011. We are requesting for one block and we would prefer NPA/NXX-7.

At this time, the Rate Center does not meet the required FCC criteria to obtain growth resources.

It is imperative that we have these additional numbers to prevent our organization from incurring damages as it relates to customer satisfaction. If more information is needed, please advise.

Thank you in advance,

Patty Berris
Data Administrator – Code Administration

☐ Extend Reservation

Central Office Code Assignment Guidelines (COCAG)
Central Office Code (NXX) Assignment Request – Part 1 (ATIS-0300050.p1)
July 19, 2010

1.5 Type of Request (Initial, Growth, etc.) Growth

If an initial code, attach (1) evidence of certification and (2) proof of ability to place code in service within 60 days.
If a growth code, attach months to exhaust worksheet.

Pool Indicator¹³: ☒ Yes ☐ No

1.6 NPA Jeopardy Criteria Apply: ☐ Yes ☐ No

1.7 Code request for new service (Explain): REQUIRE LRN TO SUPPORT NETWORK PLANS

1.8 ☐

It is the code applicant's responsibility to arrange input of Part 2 information into BIRRDs. The 45-calendar day nationwide minimum interval cut-over for BIRRDs will not begin until input into BIRRDs has been completed.

Comments: RETAIN ONLY THE '7' BLOCK OUT OF CODE AND DONATE REMAINING BLOCKS TO THE NUMBER POOL.

I hereby certify that the above information requesting an NXX code is true and accurate to the best of my knowledge and that this application has been prepared in accordance with the Central Office Code (NXX) Assignment Guidelines posted to the ATIS web site (<http://www.atis.org/inc/incguides.asp>) as of the date of this application.¹⁴

Central Office Code Assignment Guidelines (COCAG)
Central Office Code (NXX) Assignment Request – Part 1 (ATIS-0300050.p1)
July 19, 2010

- ¹ Identify type and reason for change(s) in Section 1.4(e).
- ² A list of the current Code Administrator(s) who can provide assistance in completing this form is available upon request from NANPA.
- ³ The NXX field is required for any code request in which there is a change or the NXX is being returned.
- ⁴ Operating Company Number (OCN) assignments must uniquely identify the applicant. Relative to CO Code assignments, NECA-assigned Company Codes may be used as OCNs. Companies with no prior CO Code or Company Code assignments may contact NECA(800-228-8597) to be assigned a Company Code(s). Since multiple OCNs and/or Company Codes may be associated with a given company, companies with prior assignment should direct questions regarding appropriate OCN usage to the Telcordia™ Routing Administration (TRA) on 732-699-6700.
- ⁵ This is an eleven-character descriptor of the switch provided by the owning entity for the purpose of routing calls. This is the eleven-character Telcordia™ COMMON LANGUAGE CLLI™ Location Identification of the applicant's switch or POI. (Telcordia and CLLI are trademarks and COMMON LANGUAGE is a registered trademarks of Telcordia Technologies, Inc.)
- ⁶ Rate Center name must be a tariffed Rate Center associated with toll billing.
- ⁷ Applies to any code applicant connecting to the Public Switched Telephone Network via a tandem owned by a different carrier.
- ⁸ This is an eleven-character descriptor provided by the owning entity for the purpose of routing calls. This must be the CLLI™ Location Identification Code of the switching entity/POI, and is the same on Part 2, Form 1, Page 2 of 2.
- ⁹ Code applicants should request an effective date that is at least 66 calendar days from the submission of this form. It should be noted that interconnection arrangements and facilities need to be in place prior to activation of a code. Such arrangements are outside the scope of these guidelines.
- ¹⁰ Requests for code assignment shall not be made more than six months prior to the requested effective date.
- ¹¹ Select if you are the current Code Holder
- ¹² Select if you are not the current Code Holder
- ¹³ The Applicant will indicate "Yes" if the NXX being requested will be used for thousands-block number pooling and will leave this field blank if it is not.
- ¹⁴ An incomplete form may result in delays in processing this request.

Thousands-Block Application Form Part 1A

Instructions for filling out each Section of the Part 1A form:

Section 1.1 Contact information requires that Service Providers supply under “Block Applicant” the company name, company headquarters address, a contact within the company, an address where the contact person may be reached, in addition to the correct phone, fax, and e-mail address. The Pooling Administrator section also requires the Service Provider to fill in the Pooling Administrator’s name, address, phone, fax and e-mail.

Section 1.2 Service Providers who need a thousands-block assignment or for an Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a CO Code Application needs to also be submitted to the PA. The Service Provider should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia™ LERG™ Routing Guide. The Operating Company Number (OCN) assigned to the service provider and the OCN its parent company. An OCN is a four-character alphanumeric assigned by Telcordia™ Routing Administration (TRA). In addition, the number of thousands-blocks requested should be supplied. The Switch Identification as well as the city or wire center name, rate center, rate center sub zone, homing tandem and CLLI™ tandem of the facilities based provider^{ix}. Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider completes the application should be entered in this section, as well as the Effective Date of the requested thousands-block.

Section 1.4 Service Providers should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS. They also indicate the primary type of business in which the numbering resource is to be used. Service Providers also may indicate their preference for a particular thousands-block, e.g., 321-9XXX, or indicate any thousands-blocks that may be undesirable, e.g., 321-6XXX.

Section 1.5 Service Providers indicate the type of request. Initial requests are for first applications for thousands-blocks in a rate center, growth for additional thousands-blocks in a rate center in which the applicant already has numbering resources, and provide the required evidence as ordered by the FCC.

The thousands-block applicant certifies veracity of this form by signing their name, and providing their title and date.
